

I Want a Career in Construction

Struggling to break out of unemployment or get out of a cycle of short term, low paying jobs?

The construction industry is the largest employer in Alberta. And it pays well. The McBride Construction Pre-Trades program is designed to break your unemployment/underemployment cycle.

And it works. **Over 85% of our graduates get employed.**

They started like you – no work, or just meagre, low paying, sporadic jobs that don't pay the bills. They couldn't break out of the cycle either.

But now they are in full time jobs. They have apprenticeships. Some even their own businesses.

Real choice. Real opportunity. **Government funded so you don't have to pay.**

The McBride Construction Pre-Trades Program

Period	What you get ...	Your Benefit
3 weeks at McBride Careers	Employability Skills – the core of what employers want	How to get a job and keep a job
10 weeks at SAIT	Construction Trades Skills – construction site safety, use of tools, working with construction materials, building	Trained in the leading technical institute in Alberta
3 weeks onsite work experience	One week of construction work on an active construction site. Then, after training, you and a prospective employer get to try out each other in 2 weeks work placement.	How do you get work without experience? How do you get experience without work? This is how!
1 week job search assistance	Work with a professional career coach to find the job. What to do, how to do it, where to go to get it done.	A job and a career. But most don't need this part – they are already employed.
6 months job support	Employment support and job search services from a professional coach, should you need it.	Six months solid employment in the construction field. With this amount of experience, you are in demand.

Certification? **Certified in employability skills, first aid, safety, fall protection, pre-trades construction.** Certificates from McBride Career Group Inc. and the Southern Alberta Institute of Technology.

Real jobs. Real careers.

Your next step: Phone Alvin at (403) 777-5627. Tell him, **"I want a career in construction."**
